Planters & Merchants which was selling at 20 in the evening went up middenly to 30 a 35 discount. Some doubt was felt at Mo bile on the solvency of the Bank of Mobile. The Cashier of the Bank writes to a Cashier in Wall street, that the

bank has a dollar in specie for every dollar of its obligations, circulation, deposites, and all. The Farmers' and Mechanics' Bank at Hartford, Conn has declared a dividend of 31 per cent. The amount of frauds perpetrated by Esborn Husted, mentioned this morning, is supposed to be nearly \$80,000 .-The Seventh Ward Bank has come in for a share, and has

stinched all Husted's property. The amount of flour and wheat passing Rochester for the esst, including shipments at Rochester, from October 29 to November 4, were 56,136 barrels flour, and 31,375 bushels wheat-of which 13,874 barrels of flour were shipped at

BUFFALO, N. Y., Nov. 1, 1342. We have entered upon the eight and our last month for navigation of the lakes. Trade in all its various branches

sactively prosecuted. Freights upon the lake and canal have advanced considerably, and it is evident that a large amount of western produce will have to lie over for want of facilities to get it to the seaboard. At Cleveland and other ports in Ohio and on lake Michigan, vast quantities of corn. grain, and other provisions are stored awaiting shipment for this port-the Canadian dealers having almost entirely deserted the market. Of wheat alone the quantity landed at this port during the month of October was 384,000 bush.; of flour 135,300, and 30,000 bush of corn. The receipts exceeded those of 1842 some 10,000 bushels of wheat and 10,000 barrels of flour. The amount of business transacted at the Canal Collec-

tor's office during the last week in October was greater than was ever before done in this city. The excess in tolls over the corresponding week in 1841, being the enormous sum of \$12,468 42. The tolls exhibit a gain over 1841 of \$4,051 up to the 1st November. The quantity of flour cleared during the month was 144,079 bbls-of wheat 378,945. Severance, of the Firemen's Insurance Company o

SANDS' SARSAPARILLA-SCROPULA,-Other diseases have shin their thousands, but Scrotula has slain its tens of thou-sands. This very alarming affection appears under a great variety of forms, from the slightest deviation from health to the most fatal of local and general disease. One of the most common forms is Tubercular Pthisis Pulmonia er Consumption of the Lungs; diseases of the hip or knee joint and white swelling: also, the glands of the neck and other parts of the body. Experience has shown that Sands' Sar-sparilla is a cure for this most inveterate complaint, and in numerous instances it has brought returning health and life where the vital spark had field. From its preparation and peculiar combination with other vegetable substances, it operates by removing in the first place unhealthy action

from the diseased organs, substituting healthy action in its place, and giving tone to the general energies of the sys For certificates of cures and various testimonials, see adwrisements in different daily papers. witisements in different daily papers.

LT We do most solemnly believe that if persons afflicted with Coughs, Colds, Consumption, Bronchitis, Dyspepsia, Asthma, Croups, Whooping Cough, &c., would in the early that so of those diseases make use of Dr. I. Covert's Balm of Life, it would cure in ninety-nine cases out of a hundred. Of this there can be no doubt in the minds of those who have used the article. The reason we here assign is, that it has cored where all hope had been given up, and where the patient it was thought could not live, and in erdinary cases we never knew a failure. Will the unbeliever please call and examine our testimonials from physiciaus, dergymen and others, who have tested the virtues of this medicine? IJ The New-York Museum had a crowded house again last night. That inimitable droll Jenkins kept the audience in a rear; his banjo playing surpasses every thing of the sort and is equal is no way to Diamond's dancing. The dae, t's by Rosalib and Boyce, were excellent. The Ethiopian Extravaganza was rich in the extreme.

IT Any invention that is productive of good or in any way service-able can always be told by the hosts of counter-feits and imitations that are sure to follow—alike only in appearance. See, for instance, the Metallic Tablet, the only article that will put and keep a Razor in order, has been more imitated than any other article known of—a sure proof of its goodness. D Public attention is particularly called to the extraor dinary case of cure from the use of that inestimable remedy,

To Read the following Remarkable Cure performed by BRISTOL'S SARSAPARILLA . NEW-YORK, Oct. 29, 1842.

Mr. C. C. Bristol-Sir: The motive that prompts me to address these lines to you, arises from a conviction para-mount to that of mere praise of your valuable Sarsaparilla, for if that was my desire I should fail in the attempt, for I

feel as though it would require a more powerful pen than mine to do justice to the high claims of so valuable a medi-cine as Bristol's Sarsaparilla.

It is the obligation I owe as one of the vast family of man to those, like myself, whose misfortune it has been to be afflicted as I have been for several years past, that indu-ces me, without solicitation, to make known to the world what has been an effectual remedy when and where the

tope of a cure was almost extinct. I had been informed that you were to visit this city this fall, when I expected to have the pleasure of stating to you what your Sarsaparilla has done for me, but in this I was disappointed, you having left the city before I knew it; I have therefore taken this method to inform you, and through

you, all who may desire to know what my afflictions were and also what has proved an antidote to the same. I was attacked with Scrofula in a very alarming form about five years since, which spread rapidly throughout my head, fice and throat, internal and external; there were several holes in the roof of my mouth and about the palate, which was nearly destroyed—my speech and hearing so much affected as to leave but little hope that those senses would ever return to me again as they now are. One of my ears was partly destroyed, my nose and the greater part of my face to all human appearance must meet the

My nerves were dreadfully affected so as to deprive me of rest or sleep that was any thing like natural, but as one renzied I passed my sleepless nights and wearisome days.

My lower extremities were deathly cold and inanimate. y feet were greatly extended in size from what was called Dropsy, and in addition to this, for many years I was afflicted with Piles in their most severe and distressing form, which is now removed, together with most of my great afflictions, through the use of your Sarsaparilla alone, after having the best medical treatment the city afforded.

I am now nearly well-my face has been saved, my mouth and throat heated, my speech and hearing restored, my sight improved, which was very doubtful, my sleep become natural and my appetite good; in a word, I am a different person in feeling and appearance, and there remains not a doubt but that Bristol's Sarsaparilla will effectually accom-Dish a thorough and lasting cure of all my afflictions.

I am at a loss for language and terms strong enough to

speak of your Sarsaparilla as it deserves. It has been to me every thing—to it I owe the preservation of my life un-der the direction of a wise Providence, and were I capable I would proclaim to all the world what Bristol's Sarsapa-rilla has done for me. It will afford me pleasure at any time to informany person who may desire to know any thing I know of Bristol Sarsaparilla.

N. B. I called at the office of the Sun paper this afternoon and requested the publication of the above letter for one week, and was refused by the person in charge of the office, who stated that the letter could not be published in the Sun, as others had the preference in such advertisements. I enquired the cause of so strange treatment, I having been a subscriber for the Sun from the first combe-

ng been a subscriber for the Sun from the first number to the present time; believing, as I did, that I was entitled to the same privilege with others in giving publicity to that which I considered to be my dutyto the community, as well as of great importance to the afflicted, that they might know what to apply as a safe and sure remedy. But I was told that my letter could not go in the Sun at any rate. I was also told that if I would wait three months they might put it in the Sun for me. I then left the office. OPHELIA GORDON

THeaith, Quiet and Comfort.—The Graham House, 63 Barclay-st. New-York, proflers advantages to Strangers stopping a lew days or weeks in the city, such as are rately offered. It is eligibly located, on a clean and airy street, very near the business part of the city, and in the immediate vicinity of the principal steamboat landings. Its apartments are convenient and near, while its table is supplied with the best Vegetables and Fruits that can be procured, excluding entirely Animal Food and Stimulants all kinds. Charges moderate—(\$1 to \$1.25 per day for ancient)—and every effort made to render Bearders comfortable. Shower Baths free. Remember 63 Barclay-st.

I Spencer announces to gentlemen that his arrangements are now completed for supplying according to pr intimation, a fine Fur Har at a price (\$3 25) which shall render it emphatically the cheapest as well as lowest priced Gentlemen's Fur Hat ever on sale in this city. It is prepared in the same style which characterizes our finest article, and like that article is offered at a price at which it cannot be continued without an unusually rapid sale. The undersigned with all confidence affirms it to be for the gentleman and economist the most desirable Fur Hat yet offered. (o20tf) SPENCER, 245 Broadway.

The Triumphant Success which has fol owed the introduction of PARKER & CO's MOLESKIN DRESS HAT, at \$2 621, warrant the Proprietors in stating that the popularity of this Hat wil soon exceed that of any other Hat ever offered to the citizens of this City. Our customers will excuse the extreme economy of the arrangements we have made for the sale of this Hat when they consider that expensive rent and fixtures only add to the price and not the quality of the article sold. Sales Room CORNER OF CENTRE-STREET and CITY HALL PLACE, opposite the Post-Office.

Orlando Fish, Fashionable Hatter, 137 Broad way, would inform the gentlemen of New-York that his Fall and Winter style of Hats is now ready for their inspection and critical judgement. Claiming the distinction of having been the first to project and abide by a strictly AMRRICAN style of Hats, instead of servilely copying the Fashions of Europe, which are often nasuited to our climate and manners, he rejoices to perseive that others have seen fit to follow his lead, and that now the following of European Fashions in Hats is almost entirely abandoned by the leading manufacturers.

He offers a Winter style of Gentlemen's Nutria Hats at

\$5.50, and warrants them equal in material, finish, fashion and durability to any Hat sold as low as \$4 in the city. But he wishes it distinctly understood that his best Hats are But he wishes it distinctly understood that his best Hats are not sold at this price, but at \$4.50. These he recommends as equal to any hat sold in New-York at \$5 or under, and challenges for them a comparison with any other.

Gentlemen visiting our city are respectfully invited to call and examine his new stock of Winter hats and judge of their quality. He is confident that, whether the cheapest or the best Hat a desired, the inquirer will here be satisfied. Try ham.

D Conant, Fashienable Hatter, 280 Grand-street, would inform the gentlemen of New-York that his fall and winter style of Hats are now ready for

their aspection. In strict accordance with the true principles of econ the subscriber has introduced for the economist a beautiful, fine finished, Fur Hat at the low price of \$4, which he unless tatingly affirms is equal to those sold in more expensive parts of the city at \$4.50 and \$5. Persons who have in the liabit of paying the latter prices for their Hats can now furnish themselves with an article equal in every re-spect for the sum of four dollars. To those who wish a low priced Hat he offers a fine, finished, substantial article of Fur Hats at \$3, equal to those sold for \$3.50, or even the famous \$3.62\frac{1}{2} Hat. Also, a complete assortment of Silk Hats, at extremely low prices, old im

LF Fur Mats at \$3 50.—The subscriber having had a number of applications for a FUR HAT, combining the qualities of beauty and durability, at a reduced price, has made arrangements with his manufacturers by which he will be enabled, on Wednesday next, Oct. 12th, to offer to his numerous customers, and the public generally, an arti-cle which, for fineness of material and beauty of finish, he feels confident will be equal, if not superior, to 1 my thing of the same description that has, as yet, been oftered. The subscriber will not insult an intelligent public by saying, in the language of an advertiser who claims to regulate (?) the fashions, that the article now offered is the same as that formerly sold for six and even seven dollars; still, he ha no hesitation in asserting that it is worth at least twelve and a half per cent more than the price asked. He is also pre-pared to sell a CASSIMERE HAT of superior quality at the same price, for which, together with an assortment of Satin Beaver, Moleskin, and extra fine Fur Hats, he solicits

SALES OF STOCKS AT PUBLIC AUCTION.

ALBA KIMBALL offers his services to Merchants and others for the sale of Stocks at Public Auction.

For the accommedation of dealers, he will hold daily a public sale of such Stocks as are offered, in the Rotunda of the Merchants' Exchange, where buyers and sellers being present, can regulate their transactions satisfactorily to themselves.

The publicity of these sales will obviate the frequent controversies and law suits which arise under the present sys-tem; being subject to the same rules of business as Mer-shants' sales, and open to inspection, where every person can exercise his own judgement.

Principals will have the liberty, whenever they so elect, to make the transfers direct to the purchaser, and receive

the medium of the Auctioneer's advertisements, as Stocks are frequently sold at the Board of Brokers at a less price than could have been obtained, had they been advertised and the sale made public.
